

Gia McNutt

Mixed Media Artist

Gia McNutt is an acrylic and mixed media abstract artist.

Initially focused on landscapes and figures, now Gia's evolving art journey is a mirror of her spiritual journey. Nature's colors inspire her - browns, greens, golds, light and shadow, as well as the many organic textures found in nature. She seeks to create harmonious work, reflecting the beauty and symmetry of nature. As she continues both her spiritual and art explorations, her goal is to create work that will resonate with spiritual seekers, as well as those who appreciate contemporary nature-inspired art.
